

Business Administration, M.B.A.

The purpose of the MBA is to prepare students for successful and rewarding careers in a diverse, global business environment in which “intrapreneurial” cultures must be the norm and organizational complexity is a way of life. Additionally, the MBA program will prepare those students who have the vision to pursue entrepreneurial pursuits, as well as integrate their business expertise into the non-profit and/or ministry setting. SAGU Business faculty and staff members work closely with students to equip them with business knowledge, highest level of critical thinking/decision-making skills, and social connectedness aptitude that are essential strengths for future employment and leadership opportunities.
