The Management Information Systems specialization is intended for students who wish to assume an important role in the solving of business problems by the more effective utilization of information technology (IT) and information systems (IS) with a professional Christian worldview in the marketplace.

Upon completion of this program students should be able to:

1. Incorporate empirical knowledge from business, religion, science and the humanities into the MIS profession.
2. Demonstrate accountability for incorporating professional, ethical, spiritual, moral and legal aspects of management into the MIS profession.
3. Value independent and self-directed learning as a life-long process in personal and professional growth.
4. Implement MIS roles designed to meet changing industry needs of society, including spiri-
